

Parth Mandaliya

+91 9510577838 | mandaliyaparth9@gmail.com | [Linkedin](#)

Profile:

Strong foundation in coding and problem-solving, with proficiency in HTML, CSS, React, and Node.js. Basic understanding of AWS services (EC2, S3, Lambda) and DevOps practices. Skilled in building responsive, user-friendly web applications with a keen eye for design.

Technical Skills:

- **Languages:** HTML, CSS, JavaScript, Python, Java
- **Concept:** Data Structure, Object-Oriented Programming, RESTful APIs
- **Frameworks And Libraries:** React.js, Express.js, Node.js
- **Database:** MySQL, MongoDB

Education:

- **Master of Computer Applications**
LJ University, Ahmedabad (July 2024 – Pursuing), **CGPA: 8.75**
- **Bachelor of Computer Applications**
Darshan University, Rajkot (July 2021 – March 2024), **CGPA: 8.95**

Projects:

Settlewise – Real estate Project (*Next.js, Node.js, Sails.js, MongoDB*) - PlumScope

- Developed a real estate platform enabling users to search properties by location, type, and price range.
- Implemented property listing and management features enabling owners to post properties by adding details, media, and verification documents.
- Integrated real-time communication between property owners and potential tenants within the platform.

MLAS (*React.js, Node.js, Sails.js, MySQL*) - PlumScope

- Developed a role-based healthcare web application with Super Admin, Clinic, and Patient portals for managing patient health data and clinic operations.
- Developed features for tracking health goals and patient progress with interactive charts and meal log monitoring.
- Designed and integrated RESTful APIs with consistent response structure and handled data storage using MySQL.

Event Ticket Booking System (*React.js, Node.js, Express.js, Redux & MongoDB*)

- Developed a full-stack MERN application allowing users to browse, book, and favourite events based on city.
- Implemented secure user authentication, authorization, and profile management.
- Designed a responsive UI with efficient backend APIs for seamless booking operations.

College Management System (.Net, C# & MySQL)

- Developed a web-based portal with role-based access for Admin, Faculty, and Students.
- Implemented modules for attendance, timetable, events, study materials, and result management.
- Enabled faculty to manage attendance and upload materials, and students to view and download academic data.

ACHIVEMENTS:

Introduction to DevOps – Coursera (IBM)

The Bits and Bytes of Computer Networking – Coursera (Google)

Hands-on Introduction to Linux Commands and Shell Scripting – Coursera (IBM)

Introduction to Software Testing – Coursera (University of Minnesota)

Experience:

PlumScope – Ahmedabad

Web developer trainee

Feb 2026 – Present

Key Responsibilities:

- Developed and maintained web applications using MERN Stack (MongoDB, Express.js, React.js, Node.js) and Next.js.
- Integrated RESTful APIs to handle data communication between frontend and backend.
- Participated in debugging, testing, and optimizing application performance while collaborating with the development team using Git.
